In accordance with a telephone conversation of August 17, 2004, a copy of the working model is enclosed for the Examiner's review. For the Examiner's convenience, a brief description of the working model is provided below.

Initially, it should of course be recognized the image on the enclosed device as being of George Foreman, the boxer, and the device has been created for inclusion with the packaging box for an electrical product which he is promoting. By pressing the red button, the image is caused to move to provide the appearance of the lips moving as the audio sound of George Foreman's voice is played. Thus, the animation sequence of the lip movement is repeated a number of times during the playing of the audio message and the speed of movement is controlled by the audio message sound signals so that the movement of the lips appears to be synchronized with the audio signal to give the appearance that the character shown is actually speaking the words.

If the Examiner has any questions or comments concerning the enclosed model, the Examiner is invited to contact the undersigned by telephone so that the model can be explained or to address any other issues. Please charge any fees due or credit any overpayment to Deposit Account No. 23-3030, but not to include issue fees.

Respectfully Submitted:

Charles P. Schmal, Reg. No. 45,082
